

FEATURES

- Abrasion-resistant protective system
- Virtually eliminates build-up and hardsurfacing
- Reduces downtime and expense of frequent welding maintenance
- Maintains structural material integrity
- Available on new and for existing attachments
- Does not affect blade mounting
- Constructed from proprietary GenGuard steel

APPLICATIONS

- Scrap Processing
- Demolition
- Recycling

Tough. Long-lasting. Reliable. Attachments protected with Genesis Shear Jaw Armor™ not only deliver productivity, uptime and value, but also far exceed normal wear cycles. Constructed from our proprietary GenGuard steel, the Jaw Armor abrasion-resistant system maintains structural material integrity and reduces build-up and hardsurfacing downtime.

To learn how Genesis Jaw Armor can increase your uptime and productivity, call **888-SHEAR-IT**.
