

# Severe-Duty Grapple (GSD)

**PALADIN**  
DEMOLITION AND RECYCLING

Patent-pending large pivot shaft and bearings provide long-term durability

Built with Weldox and Hardox steel for the best combination of structural strength and wear durability

Recessed welds are protected from wear, increasing the life of the grapple

Boxed-tine construction creates a very high strength and lightweight grapple – each tine will withstand the full breakout force of the excavator

Replaceable tine tips are abrasion-resistant

## APPLICATIONS
