

Rebar Processor (GRP)

FEATURES

- 1 Extra large, heavy-duty pivot group provides durability for increased processing
- 2 Open lower jaw design eliminates jamming
- 3 Replaceable piercing blades work with full-length lower blades to sort/separate rebar bundles
- 4 Bolt-on upper jaw side plate provides a replaceable wear surface and protects the jaw
- 5 Weld-on top guard minimizes build-up and maintenance
- 6 Dual AutoGuides maintain proper jaw alignment and extend bearing life
- 7 Maxx-NiFe® blades standard
