

# RAZER

## Demolition Tool (GDT)

### FEATURES

- 1 Low-cost, reversible, long-life crushing teeth are quickly and easily replaced, eliminating build-up
- 2 4-way indexable cutting blades feature an apex that draws material deeper into the jaw for more efficient cutting
- 3 Easy-to-change crushing teeth are available in several configurations to maximize performance in any application
- 4 Lighter weight ensures stable mounting on today's excavators and specialty high-reach machines
- 5 Short, flat-top head with bolt-on bracket shortens the center of gravity while making it easy to change mounting for different carriers
- 6 Open lower jaw allows material being processed to easily pass through, preventing jamming
- 7 Cylinder is reverse-mounted to protect from debris
