

“ENDLESS CUTTING”

Featuring high-quality blades that increase productivity and a lower jaw that endures hours of use, the Genesis GXT is Diehl Metal Recycling's mobile shear of choice.

They know the GXT's rugged construction will withstand processing the variety of material that comes their way and rely on Shear Jaw Armor™ to minimize maintenance and keep the crew up and running.

“Endless cutting.” That's what Diehl Recycling gets with the strength and durability of their GXT mobile shears. **What will you get?**

Already have a GXT? Tell us your story at genesisattachments.com/mygxtstory
